Harmon C. McAllister, Ph.D.
Research Director
The Council for Tobacco Research
900 Third Avenue
New York, New York 10022

Dear Dr. McAllister:

Dr. Marc Lippman (Georgetown University), Dr. Denis Slamon (UCLA) and I are running a non-profit special symposium sponsored by UCLA entitled "Breast Cancer: Cellular and Molecular Biology". As the copy of the enclosed announcement indicates, this symposium will highlight topics at the cutting edge of the current study of breast cancer and will feature some of the best known clinicians and researchers in the field. It will take place in Tamarron, Colorado, February 3-8, 1990. At the present time, we only have two-thirds of the funding we require to pay the expenses of our speakers. We would like you to consider the possibility of a contribution toward the \$10,000 we still require to adequately support the travel expenses of our speakers. We would prominently acknowledge the receipt of such a contribution in the UCLA proceedings abstract volumes (covering this meeting and the other 20 this year and read by approximately 9,000 people) and the proceedings volume. We expect this meeting to be well attended by both researchers and clinicians with a longstanding commitment to the study of prevention biology and cure of breast cancer. Should you be interested in making a contribution, you could contact me or either of the other two organizers or the UCLA chairman, Hank Harwood (2032 Armacost Avenue, Los Angeles, CA 90025; phone (213) 207-5042; FAX (213) 207-2397). Additional information on other UCLA scientific meetings can also be obtained from Hank Harwood.

Thank you very much for your generous consideration of this request.

Sincerely,

Robert B. Dickson, Ph.D.
Associate Professor of Anatomy and
Cell Biology
